

Company General Policy Handbook

Asterion Technologies Pvt. Ltd. — Organization-wide Policies and Guidelines

Document Type: General Company Handbook

Effective Date: 1 January 2026

Version: 1.0

Classification: Internal

1. About the Company

Asterion Technologies Pvt. Ltd. is a fictional technology organization created for testing the Neroxa AI enterprise knowledge assistant. The company develops cloud software, enterprise automation products, data platforms, and AI-enabled business solutions.

Head Office: Bengaluru, India

Founded: 2018

Industry: Information Technology and Enterprise Software

Employees: Approximately 650

Working Model: Hybrid, with office-based and remote teams

2. Vision, Mission and Values

Vision: Build trusted technology that helps organizations make better decisions and operate more efficiently.

Mission: Deliver secure, scalable, and practical software products for businesses.

Core Values

- Customer First — understand customer needs and deliver measurable value.
- Integrity — act honestly and take responsibility for decisions.
- Ownership — employees are expected to take responsibility for outcomes.
- Collaboration — teams should share knowledge and solve problems together.
- Innovation — employees are encouraged to improve processes and explore better solutions.
- Security — company and customer information must be protected.

3. Organization Structure

The company is organized into functional departments. Each department has a department head who reports to the appropriate executive.

Department	Primary Responsibility	Department Head
Engineering	Product development, software engineering, infrastructure	Chief Technology Officer
Product	Product strategy, requirements, roadmap	Chief Product Officer
Sales	Customer acquisition and revenue generation	Chief Revenue Officer
Marketing	Brand, campaigns, communications and demand generation	Chief Marketing Officer
Human Resources	People operations, hiring, performance and employee relations	Chief People Officer

Department	Primary Responsibility	Department Head
Finance	Budgeting, accounting, payroll and financial controls	Finance Director
Legal & Compliance	Contracts, legal matters and compliance	General Counsel
Information Security	Security governance, monitoring and incident response	Chief Information Security Officer
Customer Success	Customer onboarding, support and retention	VP Customer Success

4. Corporate Governance

The Executive Committee provides strategic direction and oversees major organizational decisions. The Board of Directors provides overall governance and oversight.

Major decisions involving material financial commitments, acquisitions, significant organizational restructuring, or substantial changes to company strategy require appropriate executive or board approval.

Employees must follow the authority and approval structure applicable to their role. Delegated authority may be documented through company systems or written approvals.

5. Employment Principles

Asterion aims to maintain a professional, inclusive, respectful, and performance-oriented workplace.

Employment decisions should be based on role requirements, qualifications, performance, business needs, and applicable employment terms.

Employees are expected to understand and comply with company policies, security requirements, applicable laws, and reasonable instructions from authorized managers.

6. Working Hours and Workplace

Standard working hours are 9:30 a.m. to 6:30 p.m., Monday through Friday. Teams may operate different schedules where business requirements or approved flexible-working arrangements require it.

Employees working remotely are expected to maintain reasonable availability during agreed working hours and attend required meetings.

Employees must maintain a professional environment whether working from a company office, approved remote location, or customer site.

7. Leave and Attendance

Planned leave should normally be requested at least three working days in advance through the HR system.

Emergency absence should be communicated to the reporting manager as soon as reasonably possible.

Employees are responsible for accurately recording attendance and approved leave.

Unauthorized absence, repeated attendance violations, or manipulation of attendance records may result in corrective action.

8. Performance Management

Formal performance reviews are normally conducted twice each year.

Performance evaluation may consider achievement of goals, quality of work, technical or functional capability, collaboration, communication, ownership, and adherence to company standards.

Managers may establish performance improvement plans where sustained improvement is required.

Performance ratings may influence promotion, compensation review, recognition, training opportunities, and future responsibilities.

9. Compensation and Payroll

Employee compensation may contain fixed salary, allowances, variable compensation, commissions, bonuses, or other approved components.

Monthly payroll is normally processed on the last working day of each month.

Annual compensation reviews are subject to company performance, individual performance, role requirements, market conditions, and approved budgets.

Individual salary records are confidential HR information and may be accessed only by authorized personnel.

10. Recruitment and Onboarding

Recruitment begins after an approved position request has been created by the relevant department.

Candidates may participate in screening calls, interviews, technical or functional assessments, and reference checks depending on the position.

New employees must complete onboarding covering company policies, security, systems, workplace expectations, and role-specific requirements.

The standard probationary period is six months unless the employment agreement specifies otherwise.

11. Information Security and Data Protection

Employees must protect company, employee, and customer information from unauthorized access, disclosure, alteration, or loss.

Company credentials must not be shared. Employees must use approved authentication and security mechanisms.

Sensitive business information must be stored and transmitted using approved company systems.

Security incidents, suspected credential compromise, accidental data disclosure, or lost company devices must be reported promptly to the Information Security team.

Access to internal systems is granted according to job responsibilities and may be restricted using role-based access controls.

12. Acceptable Use of Technology

Company computers, networks, software, cloud services, and accounts must be used responsibly and primarily for authorized business purposes.

Employees must not intentionally bypass security controls, deploy unauthorized software, or access systems without authorization.

Use of external AI tools for company information is permitted only when the tool and use case have been approved by the relevant security or management authority.

13. Code of Conduct

Employees must treat colleagues, customers, partners, and visitors respectfully.

Harassment, threats, discrimination, retaliation, fraud, deliberate misconduct, and abusive behavior are prohibited.

Employees must cooperate with authorized internal investigations and provide accurate information.

Managers are responsible for escalating serious conduct concerns to HR or the appropriate compliance function.

14. Conflicts of Interest

Employees must disclose actual or potential conflicts of interest that could influence, or appear to influence, business decisions.

Employees must not use confidential company information for personal gain.

Outside employment or business activities must not interfere with company responsibilities or create an unmanaged conflict of interest.

15. Gifts, Hospitality and Anti-Bribery

Employees must not offer or accept bribes, kickbacks, or improper payments.

Gifts and hospitality must not improperly influence a business decision.

Business entertainment should be reasonable, transparent, and consistent with company rules.

Potentially sensitive gifts or hospitality should be disclosed to the employee's manager or Compliance team.

16. Financial and Procurement Controls

Company purchases must follow approved procurement procedures.

Expenses must be supported by appropriate documentation and submitted within the required reimbursement period.

Employees must not approve their own purchase requests.

Material spending outside an approved budget requires the applicable financial approval.

17. Sales and Customer Management

Qualified sales opportunities must be recorded in the approved CRM.

Sales representatives must provide accurate information regarding products, pricing, contractual terms, and delivery expectations.

Only authorized personnel may execute customer contracts.

Customer information must be stored in approved systems and must not be transferred to unauthorized personal accounts or applications.

18. Intellectual Property

Work product created by employees in the course of their employment may be subject to company intellectual-property rights according to applicable agreements and law.

Employees must not copy or disclose proprietary source code, designs, documentation, trade secrets, or other confidential materials without authorization.

Third-party software, code, datasets, and content must be used in accordance with applicable licenses and company requirements.

19. Company Assets

Company laptops, mobile devices, access cards, software licenses, documents, and other assets must be used responsibly.

Employees must report loss, theft, or damage of company assets promptly.

Company assets must be returned during separation or when requested by the company.

20. Travel and Business Expenses

Business travel must be approved before booking unless an emergency exception applies.

Reasonable travel expenses may be reimbursed when supported by required documentation.

Employees should use approved travel vendors and follow the applicable travel and expense limits.

21. Learning and Development

Employees may request training related to their current role, technical development, leadership responsibilities, or planned career growth.

Training requiring significant expenditure requires manager and HR approval.

Employees may be asked to share knowledge gained from company-sponsored training with relevant teams.

22. Employee Grievances and Reporting

Employees may raise workplace concerns through their reporting manager, HR, Compliance, or another authorized reporting channel.

Reports should contain enough factual information to allow the appropriate team to review the concern.

Retaliation against an employee who raises a concern in good faith is prohibited.

23. Disciplinary Actions

Depending on the nature and severity of a policy violation, the company may use counseling, written warnings, access restrictions, performance measures, suspension, termination, or other appropriate action.

The company may consider the circumstances, severity, previous conduct, impact, and applicable employment terms when determining an appropriate response.

24. Separation and Exit

Employees leaving the company must complete the required notice, knowledge transfer, asset return, access closure, and exit documentation.

HR coordinates the exit process with the employee's department, IT, Finance, and other relevant teams.

Company access may be disabled as part of the separation process.

25. Policy Ownership and Review

Policy Owner: Human Resources and Corporate Governance

Review Cycle: Annual or whenever a significant organizational, legal, security, or operational change occurs.

Current Version: 1.0

Effective Date: 1 January 2026

26. Policy Precedence

This handbook provides general company-wide guidance. Where a specific departmental policy, employment agreement, approved procedure, or applicable legal requirement provides a more specific requirement, the applicable controlling document or requirement should be followed.

This fictional handbook is intended exclusively as synthetic enterprise data for testing Neroxa AI. It has no real-world legal, employment, financial, or organizational authority.
